PLANS BIG FUND FOR GOOD ROADS

FORMER SENATOR BOURNE WOULD SPEND \$3,000,000,000 TO IMPROVE HIGHWAYS

Washington, April 30.—An expenditure of \$3,000,000,000 for good roads—\$1,000,000,000 being construction and \$2,000,000,000 for maintenance—the investment extending over a period of fifty years, was proposed to-day in a plan submitted to the joint congressional committee on Federal aid in the construction of post roads by former Senator Bourne, of Oregon.

Mr. Bourne's plan provides for Federal and State co-operation. He also suggests the establishment of national schools of highway and bridge engineering from which trained specialists in road building would be supplied to the various States. The billion dollar construction fund, according to Mr. Bourne's plans, would be apportioned among the States upon the basis of area, population, assessed valuation and road mileage. The States would be required to deposit in the United States Treasury fifty year 4 per cent bonds for the amount due them. The Government would then loan the States the par value thereof for road construction, the Government raising its fund by the sale of fifty-year non-taxable 3 per cent bonds.

By crediting each State every year with the excess 1 per cent interest paid on the State bonds and allowing 3 per cent interest on the amount, compounded annually, a sinking fund would be established, it is estimated, from which the Government would pay off the bonds at the end of fifty years and the State would be relieved of the payment of principal on its bonds.

"So energized are most people in the pursuit of their private ends that they forget they have a soul".

CAN CIRCULATE PETITION TOMORROW

CANDIDATES FOR COUNTY OFFICE MUST HAVE CORRECT PAPERS TO GET ON BALLOT TOMORROW.

On and after Saturday next, May 3rd, candidates for county officers will get busy with petitions to get on the ballot. The petitions necessary under the operations of the new State primary law for candidates seeking party nominations, may be circulated on and after May 3, and must be filed with the County Clerk not later than July 3. Any nominating petition circulated by a candidate before May 3 will be worthless and disqualify him from getting on the primary ballots. Candidates for county offices are required to have on their petitions the signatures of not less than 3 per cent, and not an excess of 10 per cent, of the voters of the party in which they seek the nomination.

This is, based on the vote for the party's candidate for president at the last regular election. As the democratic vote in Rockcastle county for Woodrow Wilson was 589, candidates to get on the democratic ballot must have not less than 26 and not more than 86 names on each petition. The republican vote for Taft was 1082 so that republican candidates must get not less than 31 and not more than 108 names to their petitions. As the progressive polled 559 votes for Roosevelt, they must get not less than 16 and not more than 56 votes on their petitions.

The primary election law says that no candidate can get his name upon the ballot of his party until he has filed his petition, stating the office for which he is a candidate, his name, age, postoffice address, political affiliations and all other legal qualifications, and pledging himself. If nominated, not to withdraw, and, if elected, to qualify for the office.

Along with his petition each candidate must file a nominating petition, signed by electors of his city, county or district each of whom must declare intention to support the candidate for whom they sign, and none of whom shall sign any other such paper for another seeking the same office. In addition to his name each signer must give the location of his residence—street number if it be in a city—and the date of signing.

No person can sign the nominating petition of any candidate in any political party other than that of which the signer is a member, that is to say, any man who is registered as a Progressive, or who is known to have voted as a Progressive, cannot sign the petition of a Republican or a Democrat or vice versa.

Candidates for county offices can secure names from any precinct they wish, or all from one precinct but the names from each precinct must not be fixed—in other words the names from each precinct must appear on separate sheets, with the name of the precinct at the top of the sheet.

Candidates for office should be certain to secure over 3 per cent of their party vote in the last presidential election. Otherwise their petitions will be thrown out. More than ten per cent is equally as fatal as less than three per cent.

Every candidate from Sheriff to Constable will have to have a nominating petition.

MOST PROMPT AND EFFECTUAL CURE FOR BAD COLDS

When you have a bad cold you want a remedy that will not only give relief, but effect a prompt and permanent cure, a remedy that is pleasant to take, a remedy that contains nothing injurious. Chamberlain's Cough Remedy meets all these requirements. It acts on nature's plan, relieves the lungs, aids expectoration, opens the secretions and restores the system to a healthy condition. This remedy has world wide sale and use, and can always be depended upon. Sold by all dealers.

No one needs good roads quite so badly as the progressive farmer. The mud tax falls heavily on him and the longer the distance he must haul his products and his supplies the heavier is the burden. A writer in the 'Southern' agriculturalist says:

"Better roads make a better country by determining the kind of business it will do and by determining the kind of citizens it will have. Good farming calls for quick and cheap transportation; up-to-date people demand schools and churches that are easily accessible and a social life in the country. The road plays an important part in all this. Therefore, it is not strange that the better class of immigrants usually shun the section that hasn't good roads and isn't interested in building them; that the more enterprising citizens finally give up trying to improve things and go where the roads and other public utilities are better and that good roads with other things that they bring help to keep a large percentage of the young people for the farm."

There are many farmers who do not seem to realize the value of good roads. At least they make no appreciable effort to bring about improvements and many of them violently oppose any practical plan of betterment. Some of the Kentucky counties, among them Rockcastle and Whitley, have endeavored to issue bonds for building highways, but as a rule the farming communities which would benefit most by the improvement are all but unanimous in their opposition. There is no more equitable or efficient method of constructing roads than by a bond issue, but Kentucky voters, so far, have not been able to see its advantages.

No scheme of rural uplift will ever be successful that does not contemplate the improvement of the roads. Better roads unquestionably make a better country. In fact it is well nigh impossible to improve a country without improving its roads.

The subject of Federal aid for good roads was a feature of the meeting of United States Good Roads association, at Birmingham Ala., last week. Dell M. Potter, president of Southern National Highway association was on hand from Clifton Arizona. He and others were also at the Asheville, N. C., meeting last February. The proxy for Kentucky was sent to Birmingham two weeks since, by our chief booster, who was unable to attend the meeting. Following instructions of the convention the Executive Committee appointed a special committee to go to Washington to urge Congress to aid the good roads cause. The committee consists of United States Senator J. H. Bankhead, Alabama chairman; Dell M. Potter, Clifton, Ariz.; Tom L. Conner, St. Louis, and E. J. Watson, Commissioner of Agriculture, of South Carolina.

Mr. Edward Hays, the Fourth street harness maker, has a clock which is a mystery. Some months ago it got so it wouldn't run and he threw it away. Mr. Hays picked the time piece up and placed it on the mantle piece, face down. A few minutes after it was observed that the clock had raised up and was standing upon its feet, running perfectly. It has since continued to run and whenever placed on its face, immediately sits up again.—Danville Advocate.

Danville is the original prohibition town of our state and we have been advised that the advocate force had three births on the water wagon. Probably one of them lost his ticket and "fell off" to hunt it, discovering this magic timepiece in his wanderings.

The rising tide of public sentiment in every state in the Union is demanding Federal legislation looking to the building of National highways and when congress shall turn its attention to the solution of the problems involved, as it must inevitably do sooner or later when the people demand it, be induced to "commit" itself to that policy of building roads, especially trunk lines over the country, then will the high cost of living be lowered along with that old high tariff.

The candidates for jailer in nearly every county almost equal the number of all other candidates combined. It is claimed that the 50 percent increase added to the jailers allowance for boarding prisoners is the cause of the increase number of applicants for curving the jail keys.

The seventieth legislative district composed of Laurel and Rockcastle counties, will have three candidates to be voted for in November, Democratic, Republican and Progressive all furnished by Laurel.

The Progressives of this county will probably put a full ticket in the county races this year.

LIVED MANY YEARS IN ROCKCASTLE COUNTY

The following announcement which was mailed us in March reached this office yesterday, announcing the death of Rev F. L. Warren who was well known to the large majority of the people in this county.

Rev. F. L. Warren, who was born in Pulaski county, in 1826 died after an illness of several weeks, near the village of Whiting Jackson county Kansas; on March 10, 1913. No doubt a very large portion of the residents of Pulaski and Rockcastle counties will remember Rev. Warren as one of the frontier Baptist preachers of those counties. He was ordained to the gospel ministry in 1876, at the Pittman Creek church, Pulaski county. He lived in Rockcastle county for about 25 years, taking an active part in the preaching of the gospel, serving both as clerk and moderator of the association. Rev. Warren moved to Kansas in the spring of 1908. To the very last he said he wanted to go to the pulpit and preach one more sermon. He knew full well he was saved to serve, but the service of his master was the pleasure of his life. Those of his immediate family who survive him are his wife, Mrs. Sarah Elizabeth Cress of Mt. Vernon, Ky. Mrs. Lucy Cress, Bird City, Kas., Mrs. Fannie Logston, Nortonville, Kas., Mrs. Eliza J. Cress, Whiting, Kas., Mathew and Billy Warren, Auburn, Kas. The funeral services were conducted by Rev. M. W. Ballenger, pastor of baptist church Whiting Kansas. Text Revelations 14-18.

PETITION MAY BE GOTTEN

On and after Saturday next May 3rd, candidates for county offices will get base with petitions to get on the ballot. The petitions necessary under the operation of the new State primary law for candidates seeking party nominations, may be circulated on and after May 3, and must be filed with the County Clerk not later than July 3. Any nominating petition circulated by a candidate before May 3, will be worthless and disqualify him from getting on the primary ballots. Candidates for county offices are required to have on their petitions the signatures of not less than three percent and not an excess of 10 percent of the voters of the party in which they seek the nomination.

HEALTHY FACTOR IN SUCCESS

The largest factor contributing to a man's success is undoubtedly health. It has been observed that a man is seldom sick when his bowels are regular. He is never well when they are constipated. For constipation, you will find nothing quite so good as Chamberlain's Tablets. They not only move the bowels but improve the appetite and strengthen the digestion. They are sold by all dealers.

Some years ago a citizen of this county bought ten cents worth of seed corn from a neighbor and having but eight cents in his pocket paid that amount and forgot it until next spring when he had occasion to call again for more corn from the neighbor, his attention was called to the overdue two cents. Later the citizen got back at him by charging 25 cents for two hours use of his fence wire stretchers.

WONDERFUL SKIN SALVE

Bucklen's Arnica Salve is known everywhere as the best remedy made for all diseases of the skin, and also for burns, bruises and boils. Reduces inflammation and is soothing and healing. J. T. Sossaman, publisher of News, of Cornelious, N. C., writes that one box helped his serious skin ailment after other remedies failed. Only 25c. Recommended by Chas. C. Davis.

A precocious little girl at Colton is credited with writing this essay. Men are what women marry. They drink and smoke and sweat, but they don't go to church. Perhaps if they were bachelors they would. They are more logical and also more zoological. Both men and women spring from monkeys, but the women spring from a rarer men. Yet, a precocious little girl may have written the foregoing, but it sounds a bit too sharp. In all events, some precocious married lady with a large experience undoubtedly edited it. Recommended by Chas. C. Davis.

From the present indication there will be nothing doing among the Progressives in Rockcastle. Wednesday was the day set for the organization, but being unable to get a quorum or majority of the precincts represented, the meeting passed without anything done. One of the leaders of the Progressive movement told a signal representative yesterday that so far as he could see there would not be any organization perfected or any ticket placed in the field.

"Pittsburgh Perfect" Fence

Why the Electric Weld is the Most Effective Fence-Joint made

Electrically welding joints eliminates innumerable exposed wire ends, and does away with sharply and tightly bending one wire against another, which cracks the galvanizing. The Electric Weld makes every ounce of wire count for strength and durability—no wasted wire, no useless weight dragging down the fence. Electricity is the only medium which truly amalgamates metals—makes two wires one. As we use it, the galvanizing is piled around the joints, producing a one-piece fabric with absolutely dependable joints. Electrically Welded fence-joints (patented) are used only in "Pittsburgh Perfect."

Made in Different Styles for FIELD, FARM, RANCH, LAWN, CHICKEN, POULTRY and RABBIT YARD and GARDEN

Every Rod Guaranteed

Ask your dealer for "Pittsburgh Perfect" and insist on his furnishing it. Do not allow him to persuade you that some other fence is just as good. If he doesn't sell it, write us direct.

A happy arrangement has been made by the children of Mrs. Williams to meet at the old homestead and give her a cheering party as she enters her third score and ten years—Cincinnati (Sunday) Enquirer.

LOCAL

Luther Cummins has a very sick child.

Harve Damron has a child very sick, with pneumonia.

Mrs. Cleo Brown has received her appointment as postmaster. She will take charge as soon as she receives her commission.

Dr. G. B. Lawrence has lost four horses, within the past two months, including his valuable stallion-Togo.

Miss Sallie Hasty, aged 21 daughter of John Hasty of Wildie, died Saturday night from the effects of an overdose of morphine, supposed to have been taken with suicidal intent.

If Colonel Dick Knott had just been in Mt. Vernon a few hours yesterday morning he would have soon found out about how many good warm friends the Louisville Evening Post has in this neck of the woods. Since he was not here we sincerely trust that the Post representative Mr. Peak will give the "big man" a true report.

Following is program for next meeting of Commercial Club, Tuesday, May 6th:

NOTICE.—The Democratic County Committee will meet in the Court House in Mt. Vernon, Tuesday, May 6th, at 10 o'clock a. m. Important business. G. C. FISH, County Chairman.

Announcements of candidates in this paper is a cash deal and we trust no one will ask credit for such work. Announcements not paid for, will not be carried; so please do not ask credit. Past experience has taught us that political announcements are uncertain assets, when charged on the book.

Mrs. Milt Taylor was thrown from a horse near the residence of Mr. H. J. Mullins Tuesday, and badly injured. The horse became frightened at a wagon, and turned suddenly, which caused her to lose her balance. She was unconscious for a time and some apprehension is felt that she suffered internal injuries. A later report says she is doing very nicely.

The Woman's Club was delightfully entertained last Friday evening by Mrs. Albright, Miss Rowlee and Miss Wanzel. The evening was opened by music from Miss Sparks. Mr. Watson read "An Old Sweetheart Of Mine" which was followed by an address on Education by Prof. Smith of Berea, the principal speaker of the evening. A song by Mr. Tate ended the program, after which a social hour was enjoyed during which ices and cakes were served.

EVANGELISTIC MEETINGS.

Beginning tomorrow, Saturday evening, at 7:40 o'clock, in the Presbyterian church, will start a short series of evangelistic meetings, conducted by the Pastor-Evangelist, Rev. C. C. Brown, formerly of Lancaster.

Mr. Brown made his first visit to Mt. Vernon two years ago when Presbytery met here. He is not only a strong gospel preacher, but a speaker of great personality and power.

People have been looking forward to Mr. Brown's coming to Mt. Vernon for some time, and it is regretted that his stay here will be limited to about one week's time. He will preach every night next week, and all are most cordially invited to the meetings.

Hysinger & Burton, sold to Canon McWhorter, of Paint Lick, 41-102lb hogs at 8 1/2 cents and to Garner Price 82 head of sheep at \$3.30 per head.

The Graded School and the Langdon Memorial School closed for the week in order that the teachers might be able to attend the educational meeting at Louisville.

Circuit Court Convened Wednesday with Judge C. D. Newell, of Maysville, special judge presiding. Commonwealth's Attorney M. L. Jarvis arrived on the noon train. A small crowd was in town, as only those who had business were here. The docket is light and it is very likely that court will not hold longer than a week. The following gentlemen were selected as jurors:

GRAND JURY

J. W. Baker, foreman, C. B. Henon, Joshua Boening, F. M. Hurst, Lemmie Simon, H. C. Kirby, Geo. Robert Evans, W. A. Taylor, Joshua Parrott, W. A. B. Davis, William Henry Gentry, Louis Owens.

PETIT JURY No. 1

Mat Owens, Sr., Allen Adams, Mitchell Cummings, Garfield Clark, John Childress, F. M. Sexton, W. L. Sowder, J. A. Anglin, J. W. Mink, W. M. Sowder, John Price, P. Q. Griffin.

PETIT JURY No. 2

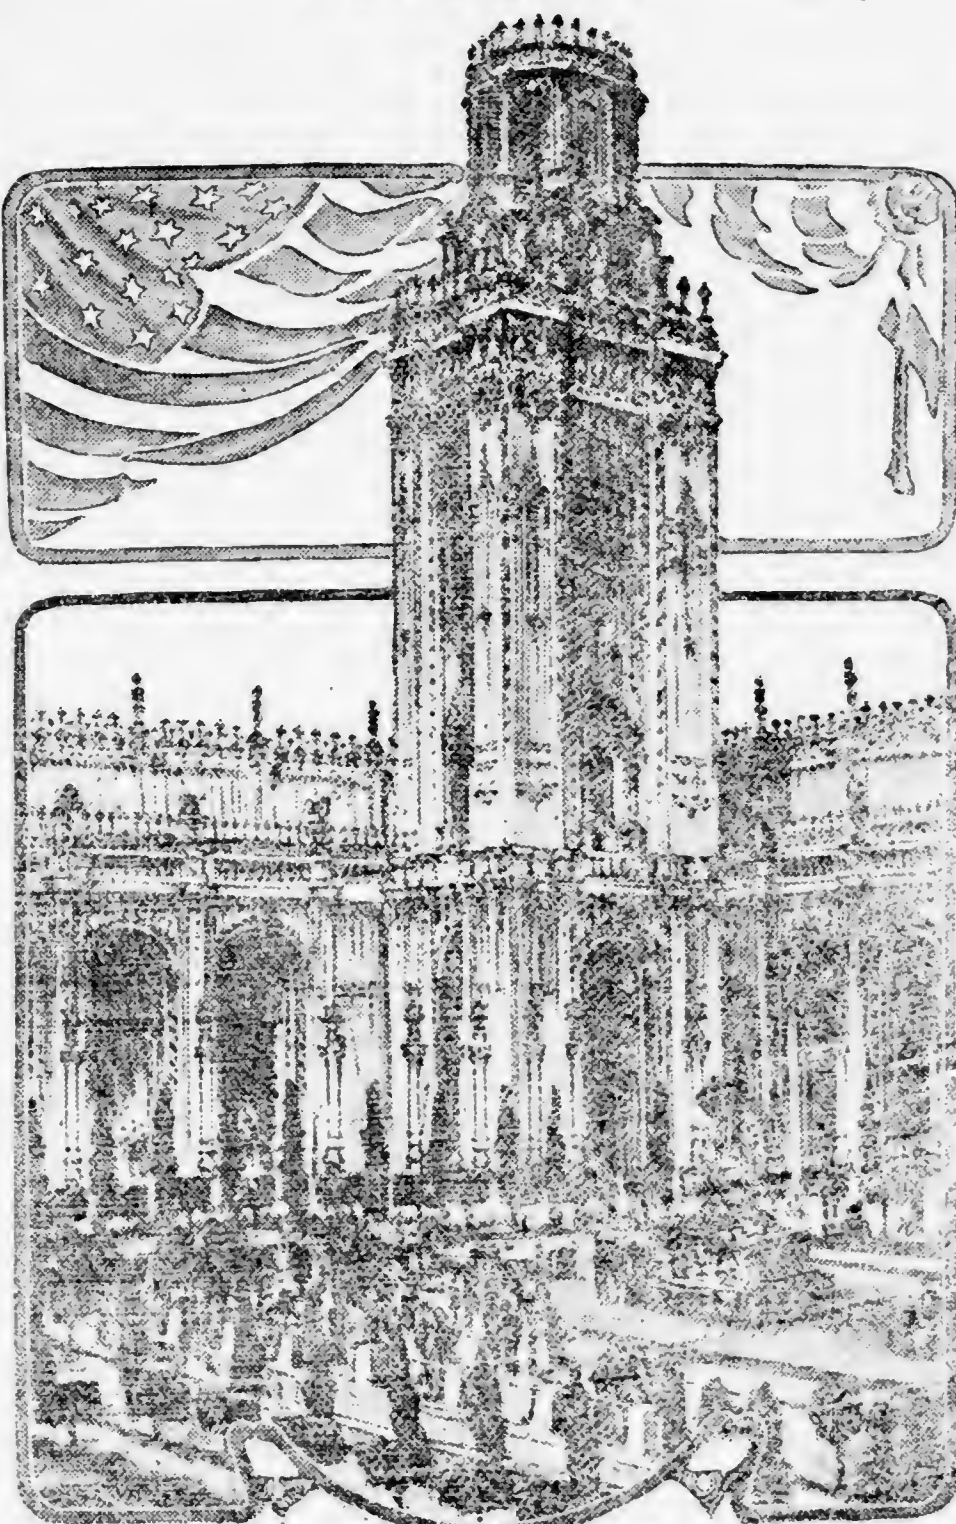

S. B. Ramsey, Raymond Dowell, Josiah Cummins, W. M. Payne, Bill Sams, Joe Roberts, Sylvan Bordes, Albert Allen, Jarvis Nee, James Brock, Coleman Bardette, W. M. Meadows.

Some few weeks ago the store house and the goods of James W. Brown at Ottawa, this county, was burned. On the building and goods there was \$800, insurance, which was promptly paid by the Citizens Fire Insurance Company. Later it developed that Brown had quite a lot of goods supposed to be those taken from the store, stored away in his dwelling. The matter was reported to the State fire marshal, who immediately sent Peel and Evans, assistants from state fire marshal's office to investigate, and searching the house found between \$200, and \$300, in merchandise and about \$7, worth of U. S. stamps, which are supposed to belong to the postoffice, which Brown kept in the building and which, with all the stamps was reported to have burned also. Brown at first denied that the goods were in the house but later admitted that his son-in-law, Cash brought the goods there. Because of certain reports that are being circulated relative to conduct of Cash, a brother of Brown's and his wife, which if true deserves the severest criticism, great feeling exists between Brown and his son-in-law Cash. Peel and Evans were before the grand jury Tuesday trying to secure indictments against Brown and his wife, with Cash as one of the prosecuting witnesses. Vis-a-vis, Brown appeared before the same body, claiming his innocence and placing the burden on Cash. As yet no indictments have been returned and from the best information obtainable it looks like, that Brown and his wife and Cash will all have to prove their innocence before a jury. Peel and Evans left Mt. Vernon, on the 5:00 o'clock train Wednesday for Rich-

where they appeared before the Federal court yesterday to secure indictments on the post office charges. Whatever the situation may be, it is a pretty nasty state of affairs from start to finish, and "Let it be the truth or a lie it will be mighty hard to reconcile." Capts Peel and Evans are doing great work hunting down the house burners in Kentucky and in a little over one year have put seventeen in the pen and have a dozen or more on the road. There are mighty few crooked fires occur that the people don't know it but being unable to prove it, the matter passes by without any airing in the courts, and the result the burning of houses for the insurance has become a very profitable business with some in Kentucky, which has about the worst fire record of any state in the union.

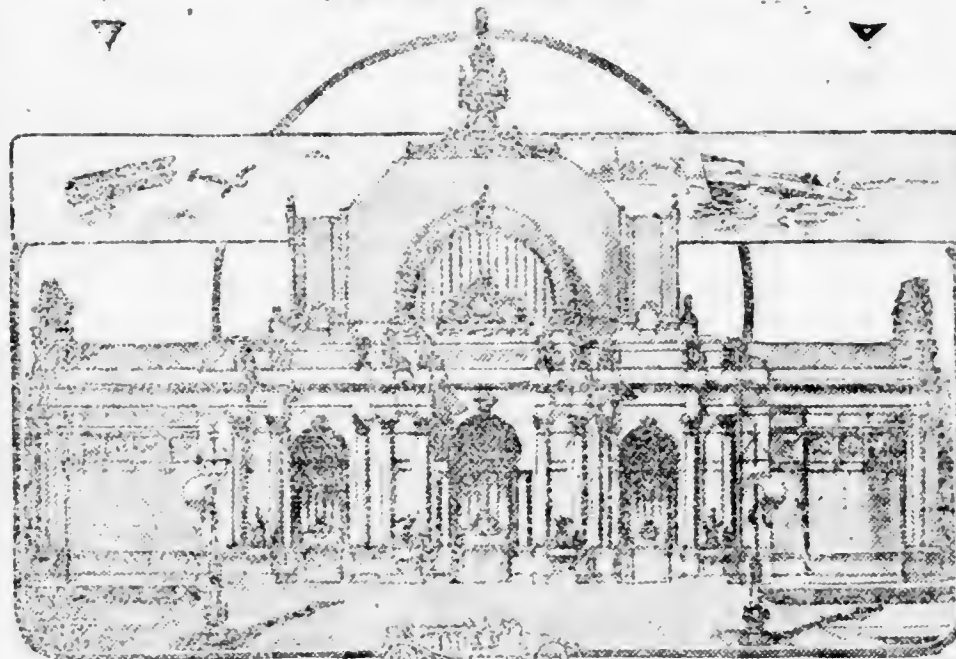

The Pongo post office has been discontinued, but as yet no instructions have been given as to where the mail for people of that locality should be sent. We take it that Cedarville is the closest office.

PANAMA-PACIFIC INTERNATIONAL EXPOSITION, SAN FRANCISCO, 1915.

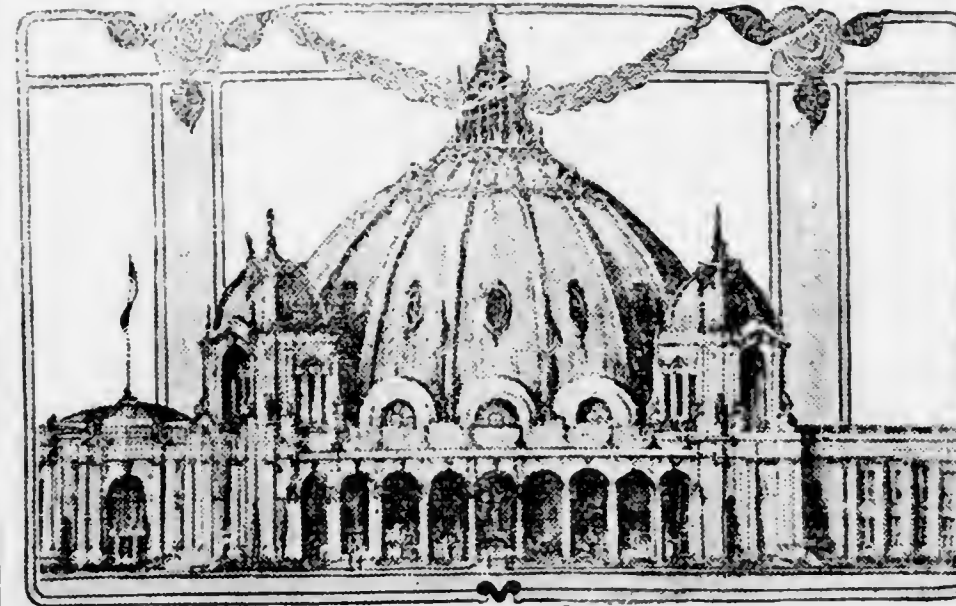

Copyright, 1913, by Panama-Pacific International Exposition. A new tower in the Festive or East Court. At night the East Court, with its pavements of gold, its great banks of flowers, and its lofty palms, will be flooded with light. Musical masterpieces of the world will be rendered by the choruses in the towers. Great saucerlike and choral festivals will assemble upon the floors of the court. In the Festive Court, the visitor will behold a vision surpassing the richest dreams of Oriental or Arabian architecture. The floors of this court will be in tessellated pavements of gold in the center of the court will be great groups of sculpture with fountains, dancing nymphs and satyrs. There will be great fountains upon which music lights will play at night and at night this mystic court, as all others, will be flooded by a glow of indirect light which will resemble a bright moonlight. At the south end of the court will be a huge tower 270 feet in height in which will be a great organ with echo organs in smaller towers of the court. The Festive Court will be a court of music, of acting, and symphonic dancing. Here will assemble many of the great pageants of Oriental nations that will take part during the exposition; here too will come many of the processions from the amusement center, which will be designed to give visitors from the more serious phases of the exposition.

PANAMA-PACIFIC INTERNATIONAL EXPOSITION, SAN FRANCISCO, 1915.

Copyright, 1914, by Panama-Pacific International Exposition. DESIGN of the Motor Building at the Panama-Pacific International Exposition. This structure will be one of the largest of the exposition palaces approximately 275 feet front by 330 feet deep, covering about 210,000 square feet or more than five acres. The dome, which surmounts the center of the front portion of the building, is 120 feet high and surmounted with a turret composed of the paws of modern motor boats, each carrying a searchlight. This turret will be used by Mr. Ryan, the chief of illumination of the exposition, for the purpose of lighting up the grounds and adjacent buildings. Other points at the base of the building will carry, allegorically, the uses of electricity, gas and other modern devices which compose the motor. Its modernity is in harmony with the nature of the exhibits which it will house, and its triumphal character is emblematic of that triumph of modern transportation, the automobile. The groups of statues surrounding the attic will be allegorically carved out to typify the triumph of the motor over the elements. The main group in front will be a sort of quadriga of automobiles typifying the conquest over the land. On the sides will be allegories of the motor boat and the aeroplane, respectively, typifying the victory over the sea and air. On either side of the entire length of the building there will be a frieze 10 feet high in bas relief, giving the history of transportation from the early log cart up to the most modern development of the automobile.

The building will be 330x200 feet, with greatest breadth of 230 feet, the latter being taken up by the wings. A vast auditorium with a huge stage will be a feature of the structure.

When a man gets so everlastingly selfish that he is not willing to help on any public enterprise but wants the other fellow to do all the doing, and him get his portion of the proceeds, that kind of a man is worth but little to a community. Fortunately those of that class are sooner or later spotted and placed in the class to which they properly belong.

Ballard's Snow Liniment
Is a Healing Remedy for All Ailments of the Flesh of Man and Beast.

The speed with which this splendid liniment heals up a bad wound or sore and surprised and pleased those who were accustomed to the slower and uncertain effect of less powerful remedies. It makes the lacerated flesh so quickly that there is but little time lost from work. In relieving rheumatic pains, neuralgia, sciatica, it has done and is doing a wonderful work. Many chronic victims of these diseases have found to their great satisfaction that it cures an attack in a fraction of the time required by the ordinary treatment. It is equally effective in the flesh ailments of animals. Owners of blooded stock value it highly for two reasons: It heals sores and wounds quickly, and leaves no disfiguring scars. This remedy is needed in every home. If its great power and efficacy was generally known, no family would be without it.

Price 25c, 50c and \$1.00 per Bottle.
